LIVING *with* BEAVERS GRANTS

Beavers aren't nuisances; they're nature's architects!

As a “keystone species” upon which other species depend, beavers craft vital habitat supporting numerous plants and animals, many of which are on the brink of extinction.

We encourage peaceful coexistence with beavers rather than cruel and ineffective trapping. To make living with beavers easier, we extend matching grants to individuals, organizations, businesses, and municipalities looking to install non-lethal solutions for managing beavers in New Hampshire. Interested? Apply and get connected with a beaver expert!

Beavers also offer exceptional wildlife-watching opportunities!
